

**CAPACITY:**

14,000 BTUH (4.1 kW)

Will operate up to 140°F (60°C) ambient air temperature.

**COMPRESSOR:**

“Copeland” Hermetic Scroll.

**WELDED FRAME CONSTRUCTION:**

Welded tube frame epoxy painted.

Optional: Embossed 304 Stainless Steel.

**COILS:**

Aluminum fin, copper tube. **Epoxy coated.**

Heavy gauge .01” (0.254mm) hardened fin stock.

Condenser: 6 fins per inch (4.2mm fin spacing).

Evaporator: 8 fins per inch (3.2mm fin spacing).

**MOTORS:**

Condenser Fan: Axial fan

Evaporator: Backward curved motorized impeller.

Optional high static blower for ducted applications.

**VOLTAGES:**

208-230/460/575/3/60 VAC

380-415/3/50 VAC

**REFRIGERANT:**

R134a.

**HEAT:**

4KW Heat (13,660 BTUH)

**CONTROLS:**

Dual pressure switch.

Optional digital controls.

**WEIGHT:**

300 lbs. (136 kg)

**SEVERE DUTY AIR CONDITIONING**
